ASPECTA FIVE - HEXI QUARTZ #5740828

The Aspecta® Advantage

Style:

Piermont is a brilliantly bold alternative to wood and stone. This painted wood boasts a unique layered finish by combining a pearlescent effect, abstract design and wood embossing texture - which when brought together creates the most fascinating wood grain. It's the perfect choice for office interiors as well as retail and hospitality.

Care & Maintenance:

The no-wax floor is easy to clean throughout the day, and planks and tiles can be easily replaced, if need be.

Durability & Performance:

100 percent virgin vinyl; 28 mil wear layer; 3.2 mm gauge; ceramic bead finish. 25-year non-prorated commercial and 10-year pro-rated labor warranties.

Reliability:

Delivery within 2 weeks throughout the continental US.

Sustainability:

Phthalate-free and formaldehyde-free. First resilient flooring to receive NSF/ANSI 332 Platinum certification. The Aspecta REVISE program takes back jobsite scraps for recycling into other vinyl products. FloorScore® certified for good indoor air quality. Health Product Declaration (HPD) v2.0 and a Declare Label have been published for Aspecta Five, both of which disclose the material ingredients of the product.

165,000 Total LeafFilter Customers

30 million feet of gutter protection installed

In 2005, owner and founder Matt Kaulig started LeafFilter Gutter Protection from his home's basement. His thriving company has grown from one small office in Hudson, Ohio to become one of the largest home improvement companies in the country. When the time came to renovate their headquarters, LeafFilter turned to the same design group that styled the space 8 years ago. This time around, changing the flooring, especially in the lobby, was a major priority. The existing black polished 18 x 18" marble couldn't stand up to the long winters of Northeast Ohio, showing white salt streaks from foot traffic that made it look unsightly for months on end. The client wanted an abstract floor that would dramatically complement the NASCAR-themed interior motif, yet look great all year round. Aspecta Five LVT provided the solution with its high style coupled with superior performance.

"This time around, we were looking for a light spec that wouldn't show winter's wear and tear. Aspecta Five Piermont in Polar White was the perfect solution: a light, modern abstract pattern with metallic hints. The company has an edginess in their style, so to really make a statement we added Piermont Midnight to Piermont Polar White in the common room to create a checkered flag effect in an oversized herringbone pattern. The cool zigzagging contrast visually draws you into the space. In the lobby, the white herringbone pattern with metallic accents balanced all the black and white and chrome details, as well as the signature LeafFilter green color. We turned it up a notch in the call center to make their area reflective of the employees' high energy. The Hexi design was abstract and unique all on its own - fun and colorful."

"Before, when someone walked across the lobby you'd hear the sound. Aspecta softens the space. Most important is the performance: holding up to that traffic with way less maintenance than the previous stone required (sealing, polishing, etc.)."

- T.J. Reinhart, Senior Designer, Assoc. IIDA, Jones Group Interiors, Inc.

"Our team enjoyed working with Aspecta Five, it was easy to install and went together well. One of the issues we've had especially with herringbone is lack of tile size uniformity. Herringbone really needs to fit. Aspecta is one of the more consistent LVTs we've worked with, and it's also beautiful. The client is really happy, and they love the end result in the space."

- Dan Frederick, Jr., Installer, D & R Commercial Flooring

"Now that we have Aspecta LVT installed here at LeafFilter, I really appreciate the different options of natural colors and surface textures that make it look so realistic! Having Aspecta flooring throughout our lobby and common area creates a welcoming effect not only for our employees, but also our customers and business partners. The subtle colors definitely create a brighter and more spacious effect as well, especially in the lobby. Our new flooring provides easy maintenance of spills, dirt and high foot traffic due to its durability and cleanability. We get so many comments every day about how the flooring complements our décor perfectly."

- Chelsy Kwiatkowski, Receptionist/HR Assistant, LeafFilter North, Inc.
